

inhus FAQ's:

Some basic faq's are included below, for other questions please telephone 0800 0699936.

Delivery times for my inhus?

Between 6/8weeks from date of order and receipt of deposit, depending on current orders.

Do I require planning permission?

Normally no, however check the inhus planning page to confirm.

How big / small can my inhus be?

The inhus is a modular design, changes can be made easily without distracting from the integrity, design and quality.

What kind of base will I need ?

Depending on model of choice, you will require a level concrete base, however we can use concrete piles with pads or environmentally friendly wooden piling that last up to 30 years.

Electrics?

All inhus models are complete with double sockets, telephone and network cables, you are required to instruct a certified electrician to connect mains input to the inhus exterior junction box.

The installation process?

Your inhus can be fitted within 2 to 7 days, dependant of size, we will require access details and site information this facilitates a trouble free installation.

Security and Insurance?

We fully understand the need for building security, that why your inhus is provided with:

- * 2 anti tamper devices on every hinge -10 point door locking.
- * Yale insurance company approved keyed locking.
- * All windows are key locking with 6 point shoot bolts.
- * 28mm Double glazed sealed units.
- * Optional wireless alarm system can be fitted.

Do the prices include VAT?

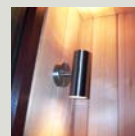

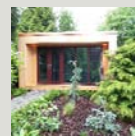

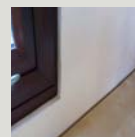

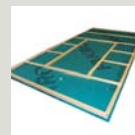

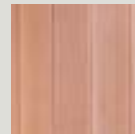

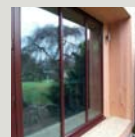

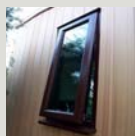

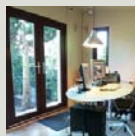

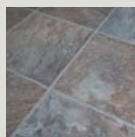

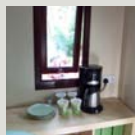

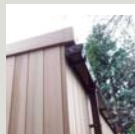

No they do not include VAT.

Do you deliver to UK, Ireland & Europe?

Yes we do, however a delivery charge will be included in the quoted price.

Can I have showers, toilets and kitchens fitted?

Yes of course, if you can imagine it, we will build it.

Can my inhus come in a size that's not listed?

Yes, the excellent thing about an inhus is the modular design, by using 3D Cad systems we literally build to any shape or size.

What return will I receive from my inhus?

Having a inhus as a garden office, we personally had our property valued before the inhus, we then installed a 51-38 inhus (value £22,500) into our garden. Revaluing the property after the installation, we had gained a £30,000 uplift to our property value.

I have tight access?

We can build an inhus small or large, straight through the house as long as the front door and back door are more or less inline.

Do you use "Contractors"?

No, we only use our own inhus fully trained staff, this eliminates the "I need to go home by Friday" buildings, if the inhus takes longer to complete your inhus, so be it.

What can I used my inhus for?

Anything you required for it, leisure, work or play it's up to you. We have built cinema's, pool rooms, spa rooms, hobby rooms, offices, garden rooms, it's your inhus, your choice.

Where are inhus built?

In Suffolk, UK, using the latest 3D Cad systems and manufacturing processes to ensure your inhus is delivered on time and in perfect order.

Is the inhus insulated?

Yes, fully insulated from the floor, walls and roof. Infact we use up to 150mm celotex high performance foiled backed insulation.

Why you should only buy from a member of the

What protection do i receive for my deposit or warranty?

We feel that we need to offer the customer the peace of mind, that's why when you buy a inhus you receive a quality approved product that has met the CPA strict criteria, which ensures that we are professionals within our industry.

As a member of the Consumer Protection Association we offer to the customer at no extra cost, a Deposit indemnity and Insurance Backed Guarantees on all of our work.

By selecting a CPA member you eliminate the risk of horror stories where consumers lose deposits, or worthless guarantees.
